MESSAGE FROM THE PRESIDENT

As you close out the 1994-95 Squirt season some of you have just experienced hockey for the first time, while others are season veterans. We appreciate you choosing the Fargo Flyer International Squirt Tournament as part of your hockey experience.

Thursday evening Fuddrucker Squirt Olympics and our 2nd Annual National Hockey League Auction should help make your visit even more memorable.

So for all involved, whether it be first year or veteran hockey parents, enjoy your experience in Fargo. You're in for one exciting time!

REMODELING OR BUILDING A NEW BUILDING?

LET OLAF DO IT!

At Olaf Anderson and Son we can handle everything from start to finish on your building project. From layout to coordinating the plumbing, heating, lighting -- everything. You see, we layout and build commercial building systems -- complete systems. And every step in our building process is checked and double-checked by engineers. Engineers who know how buildings are supposed to be built. That's the way we've done things for almost 36 years. That adds up to a lot of buildings. That adds up to a lot of satisfied customers. And that's very important to us at Olaf Anderson and Son.

DON'T PLAY WITH FIRE.
PLAY WITH HEAT.

CHRISTIAN

HOCKEY STICKS BY HOCKEY PLAYERS.

CHRISTIAN HEAT'N'SHOOT is a safe, easy way to replace blades on graphite and aluminum shafts. The Christian Heat'N'Shoot is a compact electric heater that wraps around the shaft and heats it safely for removal and replacement of blades. Simply place the Heat'N'Shoot around the shaft, plug it into a standard electric outlet and allow 1-2 minutes to heat. The shaft is heated enough to allow the blade to come loose without damaging the shaft. Just pull out the old blade, push the new one into the shaft, and wait a minute for the shaft to cool. No fire, no ovens, no ruined shafts. **3 MINUTES UNTIL GAME TIME.**
